

Currency Exchange Simplified

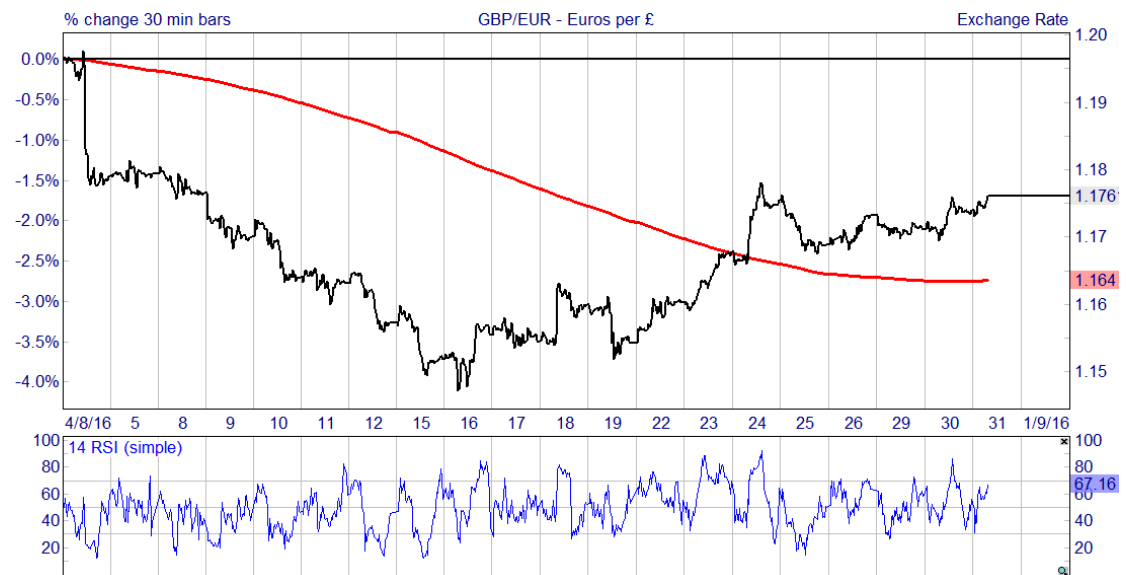

Improve the rate, saving you money

It's as easy as 1 2 3 @ 31st August 2016:

The top picture shows a 2-year colour-coded daily history of your chosen exchange rate, **Green** = more €uros to the pound, **Neutral** = uncertainty/sideways and **Pink** = less €uros to the pound with the **Blue** "smoothing" line providing further guidance, price above the **blue line** = more €uros, below it = less

The lower picture shows a 30-day 30-minute history. When price is above the **Red** "smoothing" line = more €uros, below it = less. The **blue squiggly line** oscillates between 30 and 70 with any extremes outside of that range coinciding with a trend-change for your exchange-rate:
